Good Morning

Would it be possible for someone to print and index the attached plans please?

Many Thanks

Jo

Dear Joanne

Please find attached the replacement drawings etc for this application.

All the issues including scale bars, red and blue lines, compass directions (sectional arrows have been removed) have been corrected and I can confirm that the drawings have all been successfully printed onto A4 and that the scales are correct.

I trust that the application can now be registered.

Regards

Trevor Edwards (Agent)

Dear Mr Edwards

Thank you for your email which was received by myself today.

First of all please accept my apologies for the delay in replying to you having read through the letter I do not recall receiving the original email through.

In response to the points raised in response to the letter I am able to confirm the following: -

1. The application fee was received on 17 October 2011
2. In relation to the site location plan I have double checked the plan this morning and there is definitely no north arrow on the plan; although we have a scale bar to the bottom left hand corner of the page it needs to show the scale that the plan has been produced too. Yes we still require the remainder of the land within the ownership of the application edged in blue it is just the application site and access edged in red which needs to be identified. The plan which we currently have on file also shows the road Higham Lane we are able to write that road name onto the plan for you with your permission.
3. To answer your question on the site block plan the red edge would need to correspond with the revised red edge being submitted with the site location plan as mentioned above.
4. Would you please be able to delete Sections AA and BB from the plans provided.

I trust this clarifies the situation.

If you have any further questions please feel free to contact myself.

Many Thanks
