Comments:
This proposal is an improvement on the previous scheme. However I still have concerns which need to be addressed. The roof seems to have been considerable raised up above the existing roof level which is unacceptable. The design suggests a victorian property but in detail the window proportions are out of character, and the chimney is too narrow. Furthermore the decorative plinth is unlikely to have been carried round the attached utility farm buiding. The overall appearance of the main frontage would be improved if the three gables were of equal size as previously advised and I still

have concerns about the new brick skin proposed to case the whole structure.
