Lighting assessment

Co-operative Pharmacy, 5 Hill Sreet, Hinckley, LECEICESTERSHIRE LE10 1DS - Former Gone Fishing Shop

Fascia sign – internally illuminated by fluorescent tubes (letters only to illuminate) – 450cd/m2 approx, lighting is very subtle so will not hinder highway traffic.

Projection sign – internally illuminated by fluorescent tubes – 450cd/m2 approx

Lighting is provided to ensure a safe environment for shoppers, especially during the dark winter months.

The green cross sign is illuminated to show that people can purchase all medical provisions and which can be seen from a distance during the dark winter months.

Illumination can be kept to stores opening times only if this is specified in planning permissions.

Opening times approx 7-00am – 11-00pm o'clock (Do not no at this stage this is an approx estimate).

Beam orientation:
