Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4. Biodiversity net gain strategy

4.1 Is the relevant date for the pre-development biodiversity value the same date as the planning application?

☒ Yes
☐ No

4.2 If no, what earlier date did you agree with the LPA?

4.3 How have you met the guidance on 'what counts towards your BNG'?

Find out what you can count towards a development's BNG

+ 30% net gain for habitats achieved through enhancement of modified grassland to other neutral grassland.

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

(a) No temporary access points or temporary hard standing areas outside of the immediate area of the proposed development will be used for site access, construction machinery or storage of building materials.

(b) Existing site access will be used to construct the development and then retained as site access for farm use only

(c) Retention and protection of boundary trees, hedges and margin grassland.

(d) Grassland to be kept short <100mm to discourage any small mammals, ground nesting birds, amphibians and reptiles from using the construction zone.

4.5 Did you use your local nature recovery strategy to inform the strategic significance of habitats?

This includes other specified strategies if you do not have a local nature recovery strategy.

☒ Yes
☐ No

4.6 How will you achieve the target net gain percentage?

☒ On-site
☐ Off-site
☐ Both

4.7 Are any of your on-site enhancements considered 'significant'?
Find out what counts as a significant on-site enhancement.
☒ Yes
☐ No

4.8 If yes, tell us about the significant on-site enhancements
Include the appropriate planning condition or how you've secured the habitat.

Creation of 573m2 of other neutral grassland.

- using off-site units for a small ('minor') development that is not already exempt from BNG
