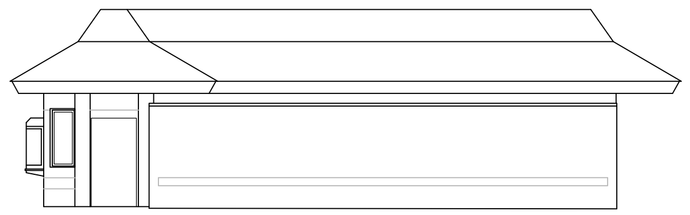
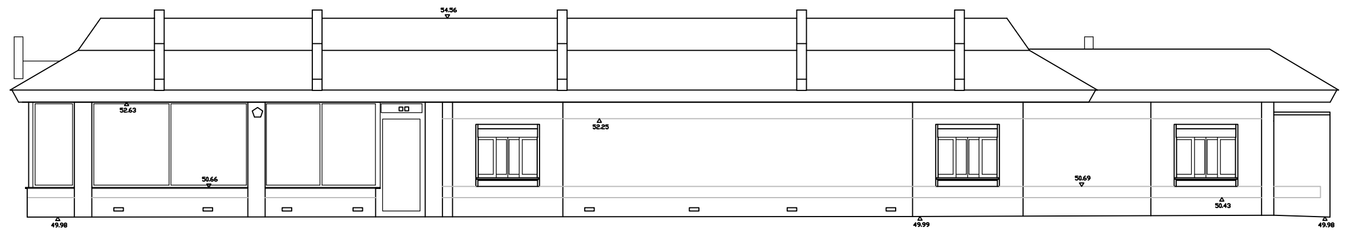
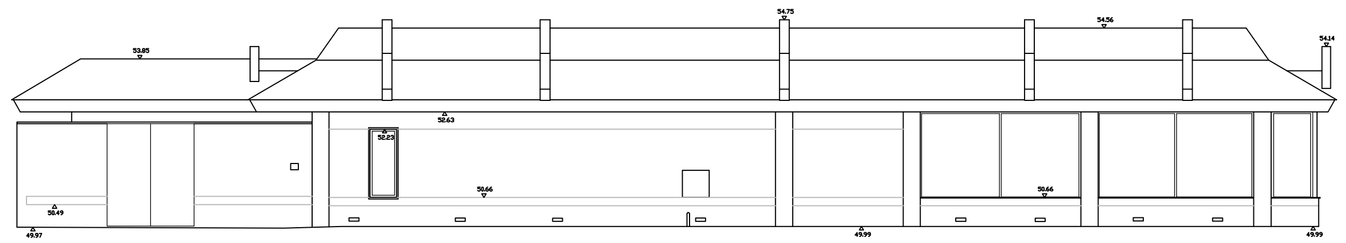
Sign 17
EXISTING ILLUMINATED SIGNAGE



Elevation 3





EXISTING ELEVATIONS

Notes:
All drawings to be read in conjunction with all other drawings as noted on issue sheet.

All existing signage to be removed and discarded as McDonald's PM instruction. Any fixing holes, electrical cable penetrations etc to be made good, flush with surrounding finishes.

All surfaces that are to be re-sprayed, must be firstly treated with suitable primers as agreed with the McDonald's PM, prior to receiving new paint finish.

Timber slats to be 40x40mm oak, spaced with gaps no greater than 70mm. The slats should be positioned to allow easy window cleaning behind them and heights should tie in with existing transom bars. The slats can be spaced off the existing window transom bars. The slats can be spaced off the existing window frames using suitable packers in line with the mullions. Spacers must be decorated in khaki green as the window frames.

6. Drive thru booths including Servo-side to be clad in timber effect alu panels full height with inset break strips and curved comes. Alcoves in between booths are to be clad in full height alu panels finished in khaki gren ref: Dulux 90YY 07/093.
