
Area 6 / 7 – Soft Landscaping Plan

The area to the front of Himalaya will be dominated by a bund that will join the roof to the ground. Sedum matting will be planted along the top of the bund, with wildflower turf covering the remaining area down to ground level.

The area between the bund and stream will be covered with turf; this will be planted with bulbs and a selection of perennial plants. Marginal plants will be positioned along the stream edge and aquatic plants will be placed in the pools along the streams length, covering much of the surface area of the end pool.

Perennial Plants to include:

Darmera peltata	Geranium sylvaticum 'Album	Digitalis purpurea 'Alba'
Eupatorium 'Riescenschirm'	Inula magnifica	Iris pseudacorus
Ligularia przewalskii	Persicaria amplexicaulis	Trollius x cultorum

Marginal / Aquatic Plants to include:

Caltha palustris	Pontederia cordata	Ranunculus lingua
Spiranthes cernum	Nuphar lutea	Nymphea 'Alba'
Menyanthes trifoliate	Carex riparia	Butomus umbellatus

Bulbs to include:

Narcissus 'Actaea'	Narcissus obvallaris	Iris bucharia
Crocus 'Barrs Purple'	Cammassia leichtlini	Allium triquetrum
