Subject: FW: 10-00220-FUL - Additional Technical Information - Luminance/Light Spread

Cathy,

Further to our conversation, I can confirm that we have no objections to this application, as the light spread will be as indicated on the plan titled 'Flood Lighting'.

Kind Regards,

Kirsty

Hi Richard,

Many thanks for sending this through. If the spread of light is only to be as indicated in the aerial photograph titled 'Flood Lighting' we have no concerns with this application. However, we have no technical expertise in interpreting lighting diagrams, and would request clarification that the technical information has been correctly interpreted on this diagram.

Again, we would stress that if the lighting spread is as indicated, we have no further comments on this application.

Kind Regards,

Kirsty

<<DC4EDBFF72F011DF96180019BBDB5C40.tif>> G <<IndexData.txt>> ood afternoon Kirsty,

I attach additional information in respect of luminance/light spread of the proposed flood lights. The applicant has stressed that the lights are positioned to minimise illumination of hedgerows and spread over only a small area of the total site.

I would be grateful for your further comments.

Kind regards

Richard Wright
