LANDSCAPING DETAILS
RELATING TO
PROPOSED CHANGE OF USE
BIJOU STABLES BRASCOTE LANE, CADEBY

Landscaping Details

The driveway and far boundary are the responsibility of Bijou Stables; these consist of different types of shrubs and trees mainly hawthorn with oak, ash, willow and leylandii spread across.

The adjacent land again mainly hawthorn for hedgerow with the odd oak and ash.

Maintenance Plan

Maintenance to boundary hedgerows is yearly March or September depending on last cut. With the exception to visibility areas where the hedgerow will not be allowed to overgrow due to safety.

Maintenance to theses areas are conducted monthly, with a strict pruning regime, eliminating viewing obstruction.
