Comments:
Could you please consider the Highway Authority response through the 'Standing advice' procedure with the following comments.
Note- On balance, following detailed consideration, the provision of satisfactory pedestrian visibility at the amended access and an additional off street car parking

space would lead to a highway gain that would offset the lack of turning facilities and a possible increase in traffic using an access that falls below normal highway authority standards.
Consider pedestrian visibility.
Consider parking space dimensions.
Consider access surfacing.
Consider access drainage.
Consider gates set back distance.
Note- The details of pedestrian visibility are not satisfactory. An amended plan should be submitted and approved.
