This is an allotment holder on your Clivesway site that has

1/ Willfully damaged at least four trees in the Holly hedge which are, of course, covered by a Tree Preservation Order (TPO).

2/ Constructed new large plastic and wood structures which according to your tenancy agreement require prior consent of the council because this is in breach of your planning regulations. (Section 2 (i) of your tenancy agreement)

3/ Has placed one of these structures so that it abuts the trees making it
a/ a potential fire hazard to the trees and
b/ reduces the amount of water and light that the trees can obtain.

4/ Has constructed a fence from 'refuse' - corrugated iron and other waste material which is in breach of your tenancy agreement (Section 2 (L) on depositing refuse on the site.

I should be grateful if these matters can be addressed, a copy of the planning consent forwarded and confirmation that the destruction / damage to the trees has been noted and that all liability for this remains with the council.

Regards

Jim
