Comments Details

All businesses have a duty of care to ensure that any waste produced is handled safely and within the law.

Storing waste

Business operators should take steps to avoid their waste causing problems with rats, mice, insects and birds:

Comments:

- Bins should be maintained and stored so that they don't cause problems to neighbouring premises due to smells
- Waste should be stored correctly in a suitable container which needs to be closed or lidded

Waste collection

- Operators should arrange their own business/trade waste collection service. If you give your waste to someone else you must be sure that they are authorised to take it and can transport, recycle or dispose of it safely

Kind regards
