Les

On that basis I have no objection to the proposal.

Regards

Hi James,

Thanks for getting back to me.

The roofing material will be transparent, and will be hidden on the three external sides by the fascia board.

Timber to be stained to match the existing.

Cheers,

Les

Les

Will the roofing material be transparent and hidden behind the timber roof structure?

Will the timber of the structure be painted or un-treated?

Regards

Morning James,

Regarding the condition on the above:

I have submitted the application via the Planning Portal.

In the meantime, could you have a look at the attached drawing. The idea is to have a flat roof which cannot be seen from the front or the two sides- the guttering would be to the rear of the shelter. I have kept it as a free standing structure, because of the gutter detail.

If this meets with your approval, then I can let the builders know what to build!

Many thanks,

Les
