

Memorandum

From: **JOHN VERNON.**

To: JAMES HICKS.

Subject: PROPOSED SITE DEVELOPMENT, 69 MAIN STREET CARLTON.

Your Reference: 08/00466/OUT. **My reference: RA/CLTN/07/08.**

Date: 15 July, 2008

Having visited the above location, I can confirm that any trees which may have been listed within the County Council's Tree preservation Order 1973 relating to the site now occupied by 69 Main Street Carlton, no longer exist. I can only assume that they were disposed of when the site was previously developed.
The trees that are on site are principally garden ornamentals, none of which appear to be more than fifteen years old.
I have pencilled in the names of the species on the attached plan for your information. It would be desirable to retain the Deodar Cedar on the island bed at the front of the existing property if that is practicable.
