

# Memorandum

**From:** JOHN VERNON.

**To:** RICHARD WRIGHT.

**Subject:** TREE SURVEY, 57 MAIN ST. NEWBOLD VERDON.

**Your Reference:** ATTACHED FILE. **My reference:** RA/NV/12.07.

**Date:** 11 December, 2007

The above location is now securely fenced, and at my recent visit I was only able to view the trees on site from outside of the boundary fence.
There has been an extensive clearance of the site, leaving only the protected trees together with some shrubby undergrowth, principally along the boundaries.
The attached report has identified the need for the implementation of outstanding maintenance works to the majority of the protected trees, together with the removal of five of those remaining, three of which are covered by the T.P.O.
As the maintenance of the trees is long overdue, and there appears to be valid reasons for seeking the removal of certain of the trees, I believe that the developers should be advised to submit an application to the council for permission to implement the works as required under the T.P.O. legislation.

J.V.
