8. Appraisal

8.1. Extensions and alterations to existing domestic properties within urban settlement boundaries are generally considered to be sustainable development in principle. The key issues in respect of this application are therefore:

- Design and impact upon the character of the area
- Other matters

Design and impact upon the character of the area

8.2 Policy DM10 of the adopted SADMP requires new development to complement or enhance the character of the surrounding area with regard to scale, layout, mass, design, materials and architectural features and for building material to respect existing/neighbouring buildings and the local area generally.

8.3 The proposal includes rendered external walls. The elevations currently have cream render, and the proposal will refresh and enhance its appearance. Given the variety of designs and finishes in the area, and the current finish in cream the proposal is not considered to have an adverse impact and will improve the dwelling's appearance and character of the area. Therefore, it complies with Policy DM10 of the adopted SADMP, the Good Design Guide (2020), and the NPPF.

Other matters

9. One objection has been received from a nearby neighbour concerning the potential use of scaffolding encroaching onto a party boundary or adjacent to a neighbouring property's side entrance during the future construction process. However, this is not considered a material planning consideration for the Local Planning Authority, as it is a civil matter to be resolved between the applicant and the neighbour.

10. Equality implications

10.1 Section 149 of the Equality Act 2010 created the public sector equality duty. Section 149 states:-

- (1) A public authority must, in the exercise of its functions, have due regard to the need to:
 - (a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
 - (b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
 - (c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

10.2 Officers have taken this into account and given due regard to this statutory duty, and the matters specified in Section 149 of the Equality Act 2010 in the determination of this application.

10.3 There are no known equality implications arising directly from this development.

- 10.4 The decision has been taken having regard to all relevant planning legislation, regulations, guidance, circulars and Council policies, including General Data Protection Regulations (2018) and The Human Rights Act (1998) (HRA 1998) which makes it unlawful for the Council to act incompatibly with Convention rights, specifically Article 6 (right to a fair hearing); Article 8 (right to respect for private and family life); Article 1 of the First Protocol (protection of property) and Article 14 (prohibition of discrimination).

11. Conclusion
