12th April 2011
Dear Sir / Madam

SHENTON HALL, SHENTON

APPLICATION ~~11/00139/LBC~~

WORKS COMPRISE THE ALTERATION OF AN EXISTING KITCHEN AND INCORPORATION OF AN EXISTING LAUNDRY AND SCULLERY, RE-FITTING OF ROOMS, TOGETHER WITH ALTERATIONS TO EXISTING WINDOW OPENINGS ONTO INTERNAL KITCHEN COURTYARD.

Please find enclosed 6 copies of the drawing numbered SHK/K/WIN.ELEV-01 rev A which now replaces the drawing numbered SHK/K/WIN.ELEV-01 that was included in the above application.

Following the discussions with your Conservation Officer and English Heritage, the proposal has been changed to retain the existing blind door opening to the south, and the original narrow window opening to the north of the elevation. The existing windows will then be centered on the gable and a further narrow sash window will be introduced as shown on the drawing. The third large sash window has been removed. The circular window has also been removed and the existing arrow slot window is to be reopened to provide natural light at high level.

I hope that these alterations can now meet with your approval and I believe that the revised scheme will enable the reinstatement of symmetry to the openings into the kitchen courtyard. Please let me know if you require any further information.

Yours sincerely

Gary French
