Trevor,

This is going on the next planning committee agenda.

Regards

Tracy

Subject: Planning Application 08/00496/FUL

Trevor,

As I said earlier I'm off now on holiday but before I go I would like to request that application 08/00496/FUL for the conversion of the Cottage on Station Road, Hinckley, be determined at committee rather than under delegated powers. I am aware that members should give proper planning reasons why this should go to committee and I will be writing a detailed letter with my comments on my return, but in summary I am concerned about the parking problems this will add to in the area but more importantly the adverse affect this development could have on the street scene due to the mass and bulk of the proposed development. I therefore feel it important that members consider this proposal in detail at a committee meeting. I am sure there will be a number of other objections from neighbours in the vicinity.

Best wishes

Cllr Stuart Bray
Hinckley Castle Ward.
