Ms Philips
I write in response to your letter dated 5th August 2010 reference 10/00369/ful.
There are several points that I wish to comment on regarding Mr Mundon's garden office.
Having had some measurements taken from my garage roof, I cannot agree with the measurements in Mr Mundon's plan's (I enclose a copy of my measurements.) The gardens in our particular row of houses are little more than courtyards and are arranged and planted accordingly, therefore this building from our perspective is intrusive and invasive and sits as the proverbial 'sore thumb', far too elevated, far too big and in such a tiny space looks clumsy and awkward.
I find the reasons Mr Mundon has given for building the office very puzzling. He states he needs the extra space for family and children, but he clearly lives alone and spends considerably long periods of time away from the house.
As the building is set out with office furniture & computer equipment, there would hardly be room for alternative uses.

Since this building was erected we have to keep the blinds of our rear bedrooms closed as we feel we have lost our privacy.
Please consider my objections to the above application.

Yours Sincerely

R W Burbank
