Subject: Re: 50 Main Street Desford leicestershire

Ref our planning application No 09/00048/LBC

Hi Jenny just to confirm that the slates I have sent were used on our roof at 50 main Street,Desford,Leicstershire,LE9 9GR. The roof has now been repaired and is in perfect condition with all the ridge tiles back as they were.The roof looks exactly as it did prior to the work and will hopefully last another 100 years.The only diifference is that we now have breathable felt underneath which is not visable from the outside.

Trust this is what you require and many thanks for your help

Ben Kerslake
