A3

Double Glazing Specification...

Order Of works

Our builders will put in a concrete foundation with floor insulation and a damp proof membrane. This will be finished off to floor level.

Supply and fit window's , and a set of French doors all in white pvc-u with 28mm Pilkington toughened double glazed units. The locking system on the windows will be espagnolette security locking system and multi point security locking system as standard on all doors.

Supply and fit a Edwardian style roof which will comprise of white aluminium rafters and 35mm opal polycarbon roofing sheets. Fitted along with all necessary gutterings and outlets including the box guttering required along the back.

Our electrician will wire in two wall lights and two double sockets.

We will finish off with a laminated window board all round.

No lead work is included in the price as we use a weathertight sealant specially formulated for conservatory roofs.

I hope this quotation meets your requirements and that I hear from you in the near future.
