James,

Apologies for the oversight. The sign should not be illuminated and I have amended the fascia section accordingly. I attach a PDF.

If you would like a hard copy of the drawing please let me know and I will put it in tonights post.

Many thanks

Vicki

Vicky,

Further to your email of 11 June 2008, I am now writing up your applications for the above property.

I note from the details submitted that there is some contradictory information in respect of whether the proposed signage is to be illuminated or not. The application form states not but a plan showing a section though the sign is submitted which shows halo type backlight illumination. Can you please confirm whether the application seeks permission for a illuminated sign or not and reissue either the application form or plan 08/26/10 dated 23.05.08.

Kind regards

James Hicks

Subject: FW: Planning Application 08/00460/FUL 24/28 Castle Street Hinckley

James,

I have amended our drawings hoping that they now show a little more detail. The constructions of the stallrisers is now noted.

The shopfront is constructed from softwood timber.

If you need anything further please do not hesitate to contact either Pauline or myself.

Many thanks

Pauline,

I write in respect of your recent planning application for a replacement shop front at the above mentioned property.

The level of detail submitted with the application is insufficient and I require further clarification of the materials of construction for the shop front, in particular details of the stall risers (the solid panels below the windows).

I would be grateful if a revised drawing could be issued as soon as possible to avoid further delay in the application process.

Kind regards

James Hicks
