James Hicks
Customer Details

Name:
Mark Walton
Address:
empty
Comments:
The ecology report submitted in support of this application Hillier (June 2010) is satisfactory. No protected species or ecological features of note were identified, and no further action is required.

Our maps show that there is a small stream to the south west of the application site. This stream runs into a Parish Level section further along its flow. Therefore, no run-off from the application site should be allowed to enter the stream.
