Comments:
Market Bosworth Society understands that this application represents a resubmission of the application which was approved, but involves a reduction in floorspace, and adjustment to the siting of the building. The Society welcomes the use of natural materials and considers that the development will not be too intrusive as a result.

We understand that the facility will be made available for community use and suggest

that provision is made for safe lock up of cycles. This will help to encourage alternative modes of transport and thereby reduce the number of car journeys required.The provision of wider parking spaces for disabled people may also be appropriate.
