Hinckley & District Borough Council

Re. B S Labels Wood St Earl Shilton Noise Nuisance.

Dear Mrs Darke,

I have been advised by Mr Lee Dolman (Environmental Health) to address my concerns regarding the above factory to yourself.

The Planning Meeting I attended on 10th March required Mr Pickering to submit a scheme to attenuate the noise to be submitted within five weeks, (I do not think this was adhered to) and also a noise abatement notice was served on 9th March giving three months notice, which has now expired.

As a resident severely affected by the above I and my neighbours have had to abide by all the environmental and planning procedures to get this noise stopped and it is taking a very long time to implement and is having a terrible effect on our quality of life.

Please let me know as soon as possible why the abatement notice has not been honoured as B S Labels now seems to be operating outside this ruling, and what will now be happening in the immediate future.

Yours faithfully

Mrs S Prosho
