Hi Simon,

I have discussed with Paul, and we are content with the approach to the windows above the entrance porch. It would provide a suitable contemporary design to contrast to the predominant traditional design approach for the majority of the new build. The window surround detailing (with arches), industrial style, and brick recess panels all seem to reflect our desired design amendments too. It is worth noting that we would also like to see some architectural detailing to the side elevation as part of the resubmission.

Many thanks,

Matt

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
