Plant Catalogue Proposal

18 Thornton Lane, Leicestershire LE67 9RP
Evergreen screening to soften proposed wall
Planting area 1m x 20m25 in front of wall to boundary

The following plants have been suggested for their hardiness, site suitability and all year round interest.
Some pruning will be required to keep within boundary.
Planting and maintenance will be carried out by Lisa Clarridge ICSF throughout the year.
Plant profiles and required quantities are detailed below.

- **Skimmia Japonica 'Fragrans' x 5 - 3ltr pot**

Male plant
Eventual height 90cm spread 1.2m pruning will take place during the summer to keep within boundary

- **Skimmia japonica 'Foremanii' x 5 - 3 ltr pot**

Female plant
Eventual height and spread 1.5m if not pruned.
Pruning will take place during the spring.
Male and female varieties will be planted to produce winter interest from the bright red berries

Sk1

- **Choisya ternata 'Sundance' x 6 - 3 ltr pot**

Height and spread if left un pruned 2.5m
Pruning will take place in the spring
Chosen for its lime green foliage to link with the Prunus laurocerasus

- **Lavandula angustifolia (English Lavender) x 10 - 1.5ltr pot**

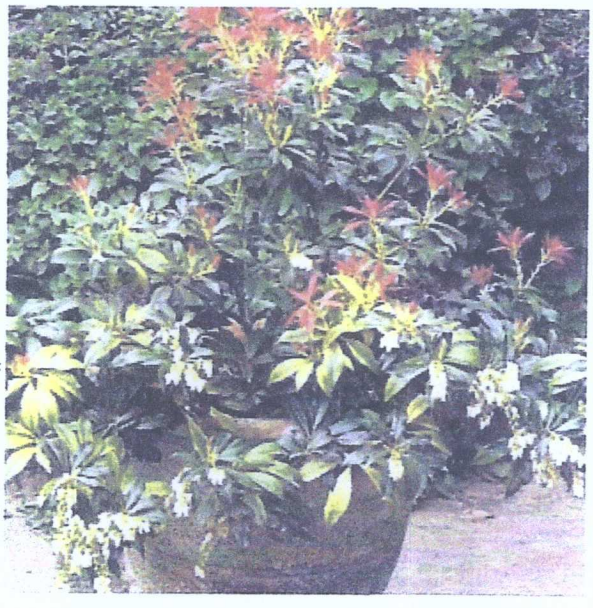
Maximum height 2ft x 1m width
Pruning will take place after flowering. Some light pruning will take place early spring to encourage bushy growth.

SK2

- **Buxus sempervirens (Common Box) x 6 - 45cm Dia**

Evergreen shrub
Regular pruning required to keep geometric shape
Plant size 45cm diameter when planted

- **Pieris japonica 'Forest Flame' x 5 - 3 ltr pot**



New growth emerges red maturing into green.
Light pruning required early spring to keep within boundary

Planting to screen boundary wall on the opposite side

- **Prunus laurocerasus Rotundifolia x 20 - 7ft**

Regular pruning will be carried out to keep hedge in line with wall

Implementation programme 4-6 weeks after completion of wall
