For the attention of Mr Rod Morgan
Administration & Technical Officer

Dear Sir

**re: 14 Church Lane, Fenny Drayton, Nuneaton, CV13 6BA**
**Planning Permission 10/00459/FUL**

I refer to your letter dated 4th April 2012 and our telephone conversation today regarding the above mentioned development and in particular Condition 4.

In order to protect the roots of the existing boundary hedgerow during the construction of the building the base plates to the scaffolding poles will be supported on wooden planks to spread the load on the ground, and protect the roots from any point load.

As stated previously safety netting will be fixed to the outside of the scaffolding for the full height of the building as work proceeds.

I trust you will now have received the roof tile sample and will be able to discharge these conditions directly.

Yours faithfully

**J t Sutton**
