Holding Objection - Further information required		
REASON FOR RECOMMENDATION:		
- The proposed works consists of a single storey rear extension, in replacement of what appears to be the existing single storey conservatory. - The works are confined to the existing garden and it is to be sited on hard standing, within a predominantly urbanised area that has limited connectivity to significant open space, mature trees and watercourses. - The proposal does not appear to involve alterations to the existing dwellings roof or roof void. - Therefore, given the immediate surroundings and nature of the proposed works, it is likely to have minimal impact on ecology and no ecological surveys are required. - We have no objection.
