Hello Debbie,

Following your letter received 18/07 and our telephone conversation, please find revised docs attached.

In response to you queries raised please also accept the following detail:-

1) Site plan was not to scale. Attached is detailed Ordnance Survey plan at 1:500
2) No. of signs applied for. Only 2 signs are applied for. See attached scheme REV B for clarity.
3) Lighting detail:- "The wording 'The co-operative food' is internally illuminated by fluorescent tubes via a halo effect. This is less that
400 candelas per square metre. There is no illumination on other wording or areas of the fascia and totem and this is only present during
hours of trading. There is minimum affect to the environment.

I hope that the submission of the above is satisfactory to you. Should you have any further query please do not hesitate to contact me.

Many Thanks for your assistance.

Regards
Steve
