Mercedes-Benz Driving Academy

Learning to drive will be one of the most satisfying and challenging things you ever do. At first it seems deceptively simple. Then the complexities start to unfold as you begin to discover the many physical, perceptual and mental demands involved.

Passing your test is just one step on the way. For all your preparation, your first year of driving will still be a bit like walking a tightrope on a windy day, with constant distractions and surprises. Each day the tightrope gets a bit steadier and the surprises become less frequent, but you still have to work hard to be prepared for them.

You carefully develop your control, precision, judgement, calmness, anticipation, instinct, alertness, self-discipline and self-knowledge. You work through the colours to reach top level. But this is still only the point where you have mastered the basic techniques and principles and are ready to really start to learn.

This logbook is designed as a map to driving skills – to lead you through as much experience as possible on your way to becoming an independent driver. It will track your progress and record your achievements, and help you to be as ready as you can.

When you learn a musical instrument, the younger you start and the more you practice, the better you become. We believe the same applies to driving. This is why we have created facilities for you to begin to develop your skills as early as possible.

Even the greatest musicians and sportsmen have coaches and mentors throughout their careers, so we have created a team of driving experts that will be available whenever you want them, at any stage of your driving career.

It is over 120 years since Karl Benz built his first car, and gave his wife, Bertha, her first driving lesson. Ever since, the principles of freedom, safety, quality and respect have been at the heart of our philosophy. We designed most of the safety features that give modern cars their incredible safety and control.

With the Mercedes-Benz Driving Academy we set out to take this philosophy a step further: to give you the best possible experience as you learn to drive, and the best possible preparation for the road ahead.
