Subject: RE: LCS Environmental Addendum - Sycamore Farm August 2010

James,

I have had a chance to review the documents regarding the above site and am satisfied with the updated contamination report (ref: LCS/Sycamore/002).

The remediation measures recommended in the original phase II report must all be carried out and their completion verified by a competent engineer.

Regards

Giles

Giles

See the attached a contamination report for the current application 10/00516/FUL at Sycamore Farm, Barton in the Beans.

Does this report cover the matters you have suggested need to be considered by condition on any approval? I would appreciate an update in light of the attached report.

Regards

Subject: LCS Environmental Addendum - Sycamore Farm August 2010

James,

I hope that you enjoyed your break.

Attached please find a .pdf copy of the LCS report as we have discussed.

I have also placed a hard copy in the post to you.

This is an addendum and review of the site and should be read in conjunction with the report covering this site already submitted to, and approved by, Ken McBride.

Kind regards,

Frank Brogan
