

Photos Showing Landscaping Membrane and Topsoil Depths

<u>Location</u>	<u>Soil Depth</u>	<u>Photo</u>
Soil Depth Check 1	315mm	
Soil Depth Check 2	345mm	

Soil Depth Check 3	308mm	
Soil Depth Check 4	380mm	

Soil Depth Check 5	400mm	 A photograph showing a soil depth measurement. A yellow measuring tape is held vertically against a concrete wall, with a wooden plank placed horizontally across it. The tape indicates a depth of approximately 400mm into the dark brown soil. A small orange marker is visible on the soil surface near the measurement point.
Soil Depth Check 6	315mm	 A photograph showing a soil depth measurement. A yellow measuring tape is held vertically against a wooden plank placed horizontally across it. The tape indicates a depth of approximately 315mm into the dark brown soil. A small orange marker is visible on the soil surface near the measurement point.
