

Clovelly House School Parking

The grounds to the front and side of the home were cleared and hard core put down. There is an additional garage. This has created sufficient parking for 17 vehicles on site. In addition, there are two areas off the road which function as lay-buys and are used by visitors and for additional parking when needed. The access driveway is wide and provides a turning circle for about five taxis that drop off and collect children during the school day.

The school has about four vehicles which are stored on the site overnight, the additional twelve vehicle places are used by staff. The school is on the bus route and some staff use the bus to work. Other staff do 'car share' which reduces the onsite parking. The school is open during term times only which means that there is no use of the parking for and by school staff vehicles for three months of the year.
