Wed 19/10/2011 19:18

forgot to mention that the roof tiles will be Redland plain in Cotswold granular finish.
Which is the same as the extension next door that you looked at.
and Alan has asked me to say that the garage door is mahogany not rosewood.

regards chris child

Hinckley 19th October 2010

Hi Kevin
Attached to this email is a photograph of the foundation detail at 29 St Georges Ave Hinckley The bricks that we would like use below dpc are Wilnecote brick dark multi smooth as the sample deposited with yourself today.
We will re-use the blue bricks from the original outhouse and lay them to the same bond which is one course stretcher one course header.
Mortar will be Cadeby yellow sand mixed with opc cement 4:1 mix.
We will use 73mm LBC Rustic bricks laid 3 strechers one header to match existing.
Garage door is to be roller type as attached photo in rosewood colour to match existing windows.
Regards chris child.
