Proposal:- EXTENSION AND ALTERATIONS TO DWELLING

Introduction:-

This application seeks full planning permission for the erection of a single storey extension to the rear of this detached dwelling.

The dwelling is constructed from red brick with brown roof tiles.

Relevant Planning History: -

96/00283/FUL - Extension to Dwelling - Planning Permission
01/00186/FUL - Extension to Dwelling - Planning Permission

Consultations:-

One letter of support has been received stating that the proposed extension will provide a better outlook for the owners of the property.

At the time of writing the report no comments have been received from: -
Ward Members

Development Plan Policies:-

Adopted Hinckley and Bosworth Local Plan

The site lies within the settlement boundary of Hinckley as defined in the adopted Hinckley and Bosworth Local Plan.

Policy BE1 - Design and Siting of the Development

Supplementary Planning Guidance: House Extensions Design Guidance (SPG)

Appraisal:-

The main considerations in respect of this application are the principle of development, the impact of the proposed extension on the character and appearance of the existing dwelling and on the amenities of the occupiers of neighbouring properties.

The Principle of Development

The site is located within the settlement boundary of Hinckley, as defined in the Adopted Hinckley and Bosworth Local Plan Proposals Map; therefore there is a presumption in favour of development subject to all other planning matters being appropriately addressed.

Impact on Existing Dwelling and Street Scene.

The proposed extension is replacing an existing conservatory extension to the rear of the dwelling. Given its position at the rear of the property and its small scale that reflects the character of the existing, the extension will not have any adverse impact on the street scene or the character of the existing dwelling and is therefore acceptable in design terms.

Impact on Neighbours.

The proposed extension projects 4.3 metres from the furthest point of the existing rear elevation. No. 23 Frobisher Close is located to the east of the application dwelling and is detached. There are windows located on the rear elevation of this property however the proposed extension is inset off the boundary by at least 5.5 metres along with the height of the existing boundary treatment consisting of a 2 metre high boundary fence, no adverse impact on residential amenity will arise.

No. 25 Frobisher Close is located to the west of the application dwelling and is detached. There are no rear windows which are visible from the application site due to the separation distance of approximately 4.5 metres from the neighbouring dwelling and the proposed extension along with the height of the existing boundary treatment consisting of a mature hedgerow approximately 3 metres in height, no adverse impact on residential amenity will arise.

The Pastures, Blake Close is located to the south of the application dwelling and is detached. There are windows located to the rear elevation of this property however a separation distance of at least 20 metres exists here between the rear elevation of the neighbouring property and the height of the existing boundary treatment consisting of a 2 metre high boundary fence, no adverse impact on residential amenity will arise.

Although the proposed extension exceeds the guidance contained in the SPG by 1.3 metres by projecting 4.3 metres from the rear elevation of the dwelling, given the design of the extension, its position inset from the boundary and the height of the existing boundary treatment it is not considered that this will have an adverse impact on the amenities of the occupiers of the neighbouring property.

Conclusion.

The proposal would respect the scale and character of the existing dwelling and would not adversely affect the amenities of the occupiers of neighbouring properties. The application is considered to be in accordance with policies BE1 of the Local Plan and the SPG on House Extensions and is therefore recommended for approval subject to conditions.

RECOMMENDATION:- Permit subject to the following conditions:-

Summary of Reasons for Recommendation and Relevant Development Plan Policies :

Having regard to the pattern of existing development in the area, representations received and relevant provisions of the development plan, as summarised below, it is considered that subject to compliance with the conditions attached to this permission, the proposed development by virtue of the scale, mass and design of the proposed extension would not detrimentally impact on the amenities of neighbouring residents or the character and appearance of the existing dwelling or street scene and would be in accordance with the development plan.
