Subject: RE: Pathways Community Centre Hinckley Baptist Church

Hi Ron

Further to our recent conversation, I confirm that I have spoken to Hinckley & Bosworth Planners and to date your application has not been submitted.
I have studied the plans you provided and have no objections to you carrying out works within the highway as part of your proposed work installation of a ramp.
As part of the works you have suggested some regarding of the footway adjacent to the proposed ramp. I have no objection to your nominated contractor carry out this work at the same time as the ramp is installed.
As this work is within the highway I will require you to obtain a permit under Section 184 of the Highways Act 1980, there is a charge of £20 for this permit.
To obtain this permit you will need to contact our Customer Service Centre at the appropriate time when you have obtained Planning Permission on 0116 3050001.
I will require you to make adequate Health & Safety provisions for pedestrians during the proposed works.

Regards

Peter Shale, *I. Eng., A.M.I.C.E.*
