Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

Myself James Clark and business partner Benjamin Murrell are entering into a rental lease at the following property; Unit 2, Nutts Lane, Hinckley, LE10 3EJ;

The unit is currently under a B8 Storage and Distribution class of use, and we are looking to change this to Class E Commercial Business and Service.

We have gained authorisation from the Landlord that this is ok to proceed with and are hoping to gain permissions from yourselves.

The unit/structure itself will not be under going any changes, nor will the parking situation, there will be no structural changes internally or externally to the premises.. just a change of use to align with our business activities.

We intend to open a Martial Arts gym which we hope will continue to support the community mentally, physically and more.

We have been running already for the past couple of years and have built one of the most steady, reliable and supportive gyms around Hinckley.. we have now managed to reach a business level to be able to financially expand this business further to the wider community and give back.

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

Formal Declaration of Exemption: Biodiversity Net Gain (BNG) To: Hinckley and Bosworth Borough Council - Planning Department Site Address: Unit 2, Nutts Lane, Hinckley, LE10 3EJ Date: 23rd April 2026 Statement of Exemption This application seeks planning permission for a Change of Use only. We wish to formally advise the Council that this development is exempt from the statutory Biodiversity Gain Condition as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended). The exemption is claimed based on the following grounds: 1. De Minimis Threshold (No Habitat Impact) The proposed development involves no internal or external structural alterations to the existing building. There is no clearance of vegetation, no groundworks, and no alteration to the existing building footprint. As such, the development does not impact any "priority habitat". 2. Sealed Surface Baseline The application site consists entirely of a pre-existing building. Under the statutory biodiversity metric, these surfaces are assigned a baseline value of zero. As there is no physical change to the environment, there is no "loss" to offset, and the 10% gain requirement is mathematically inapplicable. Conclusion In light of the above, a Biodiversity Gain Plan is not required for the determination of this application. We trust that the Council will update the application records accordingly. Yours Faithfully, Mr James A Clark Mr Benjamin M O Murrell Hinckley Muay Thai Ltd.

Note: Please read the help text for further information why developments may be exempt or not in scope.
