Hi Matt,

23/00303/FUL | Extension to existing workshop | Horiba Mira Ltd Mira Drive Lindley Nuneaton

Archaeological Comments – Revise Recommendation

We have been contacted by the applicant with a service plan of the site, please see attached. The presence of numerous services running through the application area will likely have disturbed any underlying archaeological remains present.

Having reviewed this additional information provided by the applicant, we would revise our previous advice for archaeological trial trenching. A level of archaeological involvement would still be appropriate, considering the remaining potential for archaeological remains in areas where this disturbance is limited. We are satisfied however that this could be carried out as a watching brief during groundworks for the development.

Please do let me know if you have any further queries.

Kind Regards,

William
