Stance: No objections.

Dear Alex,

I am writing in respect of ecological matters for the above application advice request regarding the proposed erection of 4 holiday lodges and associated works.

Thank you for reconsulting with me following my original consultation in January 2024 requesting that the submitted ecological supporting information is updated. I have reviewed the latest documents on Hinkley & Bosworth Borough Council's online planning portal and can see that an update Preliminary Ecological Appraisal (PEA) has been provided.

The PEA Rev1 report dated March 2024 completed by Swan Environmental is satisfactory. The assessment identified that the proposed development site was of no significant ecological significance and no further surveys are required prior to the determination of the planning application. There have however been recommendations for precautionary measures in relation to vegetation clearance and construction phases, along with provision of ecological enhancements which can form a suitable planning conditions. Please see relevant report sections for more information.

I have no holding objections or further comments to make at this stage.

Yours sincerely,

Dean LeFeuvre BSc (Hons) MCIEEM
