Subject: MIRA customer bldg - 11/00748/CONDIT

Hi Ebbony,

Following our telephone conversation and progress of works on site, the only item that is the subject of our application currently in place (& therefore requiring retrospective approval) is the shallow pitched roof over the workshops in lieu of the approved shallow curved roof. The window & door configuration of the curtain wall will be the next item of change and this is currently scheduled to start on the 28 November 2011.

Regards,

Jim Rivers
