Planning Statement for
Caravan Adjacent Poultry Farm
Desford Road
Desford
Leicester
LE9 2BF

This statement is to support an application at at the above address to create four travellers pitches in a field which has contained a single occupied caravan for a large number of years, long enough in fact to warrant its own postal address.

It is proposed that the four pitches be used by Mr McDonagh's three children and their Grandma.

The family have bought the derilect Bradwardine riding stables next door which they are turning into a family home for their disabled son Barney.

The purpose of the pitches is to give Barney's three siblings the independance they will need while also providing them with a base.

The fourth pitch is for Barney's Grandmother who provides much needed help with the round the clock care and mental support he needs so needs to be based near to the family home.
