Comments:
We note that there may be a small section of hedgerow being removed but note that a section of hedgerow will be replaced along the new access. This should be undertaken using hedgerow species found in the area.

Removal of the section of hedgerow should be undertaken outside of the bird-breeding season i.e. between September and the end of February. If this is not possible, the area should be checked by a suitably experienced individual prior to removal.
