

Delegated Report

Planning Ref: 23/00830/HOU
Applicant: Michael Andrews
Ward: Burbage Sketchley & Stretton

Hinckley & Bosworth
Borough Council

Site: 56 Lychgate Lane Burbage Leicestershire

Proposal: Single storey rear extension and front porch

1. Recommendations

1.1. Grant planning permission subject to:

- Planning conditions outlined at the end of this report.

2. Planning application description

- 2.1. This householder application seeks planning permission for the construction of a single storey rear extension and a front porch to a dwelling, 56 Lychgate Lane, Burbage. This is a revised application to an already approved plan (23/00335/HOU).
- 2.2. The proposed rear extension extends 5 metres in depth from the main rear elevation at 0.15 metres inside the side boundary, 1 metre depth from the existing single storey rear projection. The rear extension has an approximate width of 6 metres. It creates a hipped pitched roof form with an eaves height of 2.56 metres and ridge height of 3.75 metres. The proposal includes rendered side walls to match the existing dwelling, the rear elevation to be constructed in unspecified facing bricks and the roof be surfaced in similar/matching colour roof tiles to those of the existing dwelling.
- 2.3. The proposed front porch extends 1.5 metres forward of the main front elevation with a width of 2.2 metres and a dual pitched gable fronted roof form with an eaves height of 2.27 metres and ridge height of 3.4 metres. It is proposed to be constructed with facing bricks and horizontal boarding to the gable apex and similar/matching colour roof tiles.
- 2.4. This amendment to the originally approved application include a 1 metre increase in the depth of the rear extension and 0.3 metres for the front extension. This creates a longer projection on one side of the rear extension.

3. Description of the site and surrounding area

- 3.1. The application dwelling is located within the settlement boundary of Burbage in a residential area. It is a semi-detached two storey house with a gable sided main roof form and a large flat roof dormer to the rear roof elevation. It has a single storey flat roof extension across part of the rear elevation and a timber framed glazed front porch with lean-to roof. The dwelling is constructed with cream rendered walls, slate roof and leaded white uPVC windows and with dark grey horizontal cladding to the rear dormer window. There is a detached flat roof garage to the side and rear of the dwelling accessed by a 26 metres long driveway (currently in the process of being re-surfaced) that provides at least three off-street parking spaces. The rear garden is enclosed by 1.8 metres high close boarded timber fencing.
- 3.2. The application dwelling lies within a row of similarly scaled and designed semi-detached houses with gable sided roof form, predominantly with cream rendered walls and occasional front porches with either dual pitched or lean-to roof forms.

Many have single storey additions to part of their rear elevations, which may have originally been outbuildings. The adjoining dwelling has such an addition on the far side of its rear elevation with a dual pitched roof and a flat timber framed gazebo type canopy to a depth of approximately 2 metres across the remainder of the rear elevation above the principal ground floor rear elevation window.

4. Relevant planning history

23/00355/HOU – Single storey rear extension and front porch -Planning Permission – 30.05.2023.

5. Publicity

5.1. The application has been publicised by sending out letters to local residents.

5.2. No responses have been received as a result of public consultation.

6. Consultation

6.1. No objection has been received from Burbage Parish Council.

7. Policy

7.1. Burbage Neighbourhood Development Plan (BNDP) 2015-2026 (2021)

- No relevant policies

7.2. Core Strategy (2009)

- No relevant policies

7.3. Site Allocations and Development Management Policies (SADMP) DPD (2016)

- Policy DM1: Presumption in Favour of Sustainable Development
- Policy DM10: Development and Design
- Policy DM18: Vehicle Parking Standards

7.4. National Planning Policies and Guidance

- National Planning Policy Framework (NPPF 2023)
- Planning Practice Guidance (PPG)

7.5. Other relevant guidance

- Good Design Guide (2020)
- National Design Guide (2019)
- Local Highway Authority Design Guide

8. Appraisal

8.1. Extensions to existing domestic properties within urban settlement boundaries are generally considered to be sustainable development in principle. The key issues in respect of this application are therefore:

- Design and impact upon the character of the area
- Impact upon neighbouring residential amenity
- Impact upon parking provision

Design and impact upon the character of the area

- 8.2 Policy DM10 of the adopted SADMP requires new development to complement or enhance the character of the surrounding area with regard to scale, layout, mass, design, materials and architectural features and for building material to respect existing/neighbouring buildings and the local area generally. Burbage Neighbourhood Development Plan (BNDP) contains no relevant policies for domestic extensions but refers to the materials, design and scale of extensions and alterations being compatible with the original building (Para. 15.3).
- 8.3 In respect of rear extensions, the Council's adopted Good Design Guide states:
'Rear extensions should be designed to be clearly subordinate to the main dwelling. They should be an appropriate height, width, depth and reflect or complement the detailing and materials of the original building.'
- 8.4 The proposed rear extension extends 5 metres from the main rear elevation at 0.15 metres inside the side boundary, and 1 metre from the existing rear projection. This creates a longer projection on one side of the rear elevation. There is a separation distance of 1.2 metres created between the extension and the existing detached garage located to the southwest of the extension. The rear extension has an approximate width of 6 metres, a hipped pitched roof form with an eaves height of 2.56 metres and ridge height of 3.75 metres. In context to the amenity space and the siting of the proposed extension to the rear, the extension is considered to have appropriate dimension and is subordinate to the main dwelling in terms of its height, width and depth. The side wall of the extension is rendered to match the existing dwelling, the rear elevation is constructed in unspecified facing bricks and the roof is surfaced in similar/matching colour roof tiles to those of the existing dwelling.
- 8.5 The proposed front porch extends 1.5 metres forward of the main front elevation with a width of 2.2 metres and a dual pitched gable fronted roof form with an eaves height of 2.27 metres and ridge height of 3.4 metres. The surrounding street scene has front porches with either dual pitched or lean-to roof forms on similar neighbouring dwellings and therefore the proposed increase in the depth of the front extension does not result in any uncharacteristic feature in the surrounding area. It is proposed to be constructed with facing bricks and horizontal boarding to the gable apex and similar/matching colour roof tiles.
- 8.6 By virtue of their siting, subordinate single storey scale, and subject to the use of matching materials to complement the existing external materials secured by planning condition, it is considered that the proposal respects the scale, character and appearance of the existing dwelling and the surrounding area. The proposal is therefore in accordance with Policy DM10 of the adopted SADMP, the general principles of the adopted Good Design Guide and the principles of the Burbage Neighbourhood Development Plan.

Impact upon neighbouring residential amenity

- 8.7 Policy DM10 of the adopted SADMP and the adopted Good Design Guide require that development would not have a significant adverse effect on the privacy and/or amenity of nearby residents and occupiers of adjacent buildings.
- 8.8 The adopted Good Design Guide states:
'The 45 degree rule is applied for planning applications for new extensions to existing properties which could result in the outlook from or daylight to a principal window to a habitable room being impacted upon. On a plan of the proposal, a projecting line is to be drawn from the nearest principal window to a habitable room that may be affected by the planning application towards the proposed building at an angle of 45 degrees. Habitable rooms include living rooms, bedrooms and

kitchens but do not include rooms such as bathrooms, utility rooms, halls, landings or garages. The extension should not cross the 45 degree line.'

- 8.9 The proposed rear extension is considered to have appropriate dimensions. The principal ground floor kitchen (habitable room), patio area and door/window in the rear elevation of the adjoining dwelling to the east (No. 58) is in close proximity to the common side boundary. It is acknowledged that the proposed rear extension is approximately 3 metres further from the open canopy and rear projection to 58 Lychgate Lane. Notwithstanding the breach of 45 degree line taken from the rear window of 58 Lychgate Lane, the habitable room opens into a living room that stretches to the front of the house and is served by a front bay window. In addition, the extension is single storey in scale, has lower eaves and a hipped pitched roof, sun movement from the east to the west, the overbearing or overshadowing impacts and loss of light are considered to have a minimal impact on the adjoining property. The 1.8 metres high close boarded timber panel separates the garden of both properties and reduces the level of overlooking. No objection has been received from the adjoining neighbour.
- 8.10 The extension has no significant adverse impact on 54 Lychgate Lane as there is 2.5 metres between the extension and 54 Lychgate Lane. The front porch extends 1.5 metres forward of the main front elevation and separation distance of over 2.5 metres to either side boundary. It has appropriate dimension and does not go beyond 2 metres as proposed by the Good Design Guide. There is no impact on the front driveway and does not result in any adverse impacts on the residential amenity or privacy of any neighbouring occupiers.
- 8.11 By virtue of the above, it is considered that the proposal does not result in any significant or unacceptable adverse impacts on the residential amenity or privacy of the occupiers of any neighbouring properties in this case. The proposal is therefore considered to be in accordance with Policy DM10 of the adopted SADMP and acceptable in terms of the adopted Good Design Guide. No objections to the proposals have been received from the occupiers of any neighbouring properties.

Impact upon parking provision

- 8.12 Policy DM18 of the adopted SADMP seeks to ensure an appropriate level of parking provision of appropriate design.
- 8.13 The proposal does not result in any increase in bedrooms to the dwelling and the existing off-street parking provision for a minimum of three vehicles remains unaffected and adequate to serve the existing/resulting four bedroomed dwelling which is located in a highly sustainable urban location where a full range of services and facilities are available by alternative and more sustainable transport means. The existing/retained parking provision would therefore remain in accordance with Policy DM18 of the adopted SADMP and the local highway authority design guide standards for a four bedroomed dwelling.

9. Equality implications

- 9.1 Section 149 of the Equality Act 2010 created the public sector equality duty. Section 149 states:-
- (1) A public authority must, in the exercise of its functions, have due regard to the need to:
 - (a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
 - (b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;

- (c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.
- 9.2 Officers have taken this into account and given due regard to this statutory duty, and the matters specified in Section 149 of the Equality Act 2010 in the determination of this application.
- 9.3 There are no known equality implications arising directly from this development.
- 9.4 The decision has been taken having regard to all relevant planning legislation, regulations, guidance, circulars and Council policies, including General Data Protection Regulations (2018) and The Human Rights Act (1998) (HRA 1998) which makes it unlawful for the Council to act incompatibly with Convention rights, specifically Article 6 (right to a fair hearing); Article 8 (right to respect for private and family life); Article 1 of the First Protocol (protection of property) and Article 14 (prohibition of discrimination).

10. Conclusion

- 10.1. The proposal relates to extensions and alterations to an existing dwelling located within the urban settlement boundary of Burbage where there is a general presumption in favour of sustainable development as set out in Policy DM1 of the adopted SADMP and the overarching principles of the NPPF.
- 10.2. By virtue of its siting, single storey scale and subject to the use of appropriate external materials in their construction to ensure a satisfactory appearance (secured by planning condition), the proposal respects and complements the scale, character and appearance of the existing dwelling and has no significant adverse visual impacts on the street scene or the surrounding area. By virtue of its single storey scale, depth, height, hipped pitched roof, design and screening by existing neighbouring structures and boundary fencing, it is considered that the proposal has no significant or unacceptable adverse impacts upon the privacy or residential amenity of any neighbouring properties. The proposal retains more than adequate private rear amenity space of approximately 100 square metres and a minimum of three off-street parking spaces to serve the four bedroomed dwelling. The proposal is considered to be in accordance with Policies DM1, DM10 and DM18 of the adopted SADMP, the general principles of the adopted Good Design Guide and the principles of the Burbage Neighbourhood Development Plan and is therefore recommended for approval subject to conditions.

11. Recommendation

11.1 Grant planning permission subject to:

- Planning conditions outlined at the end of this report.

11.2 Conditions and Reasons

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990, as amended by the Planning and Compulsory Purchase Act 2004.

2. The development hereby permitted shall not be carried out otherwise than in complete accordance with the submitted application details, as follows: Location Plan Drawing Number. 1619/SL, Proposed Plans and Elevation

Drawing Number 1619 received by the local planning authority on 24 October 2023, Block Plan Drawing Number 1619/BP received by the local planning authority on 19 October 2023.

Reason: To ensure a satisfactory form of development in accordance with Policies DM1 and DM10 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

3. The materials to be used on the external elevations of the proposed extension and alterations hereby permitted shall match the corresponding materials of the existing dwelling.

Reason: To ensure that the development has a satisfactory external appearance in accordance with Policy DM10 of the adopted Site Allocations and Development Management Policies Development Plan Document (2016).

11.3 Notes to applicant

1. The approved development may require Building Regulations Approval, for further information please contact the Building Control team via e-mail at buildingcontrol@hinckley-bosworth.gov.uk or call 01455 238141.
