INTEROFFICE MEMORANDUM

SUBJECT: BRIDGE ROAD, BURBAGE
DATE: 18TH MAY 2009
YOUR REF:

TREES ON LAND TO THE REAR OF 39-47 BROOKSIDE

Please find drawing attached detailing tree positions.

There are no trees directly to the rear of 39 - 45 but the rear garden of no.47 appears to have been extended to include and enclose one Sycamore, one Hazel, one Alder and one Ailanthus. Inspection was undertaken from outside the garden fence. All four are middle-aged and appear to have a good safe useful life expectancy and worthy of retention as they do provide valuable green cover in this area.

In addition the mature Hawthorn is of high value to the rear of the sub-station.

Three young self-set Sycamores along the edge of the garage area could be retained for the medium-term but are of limited value.

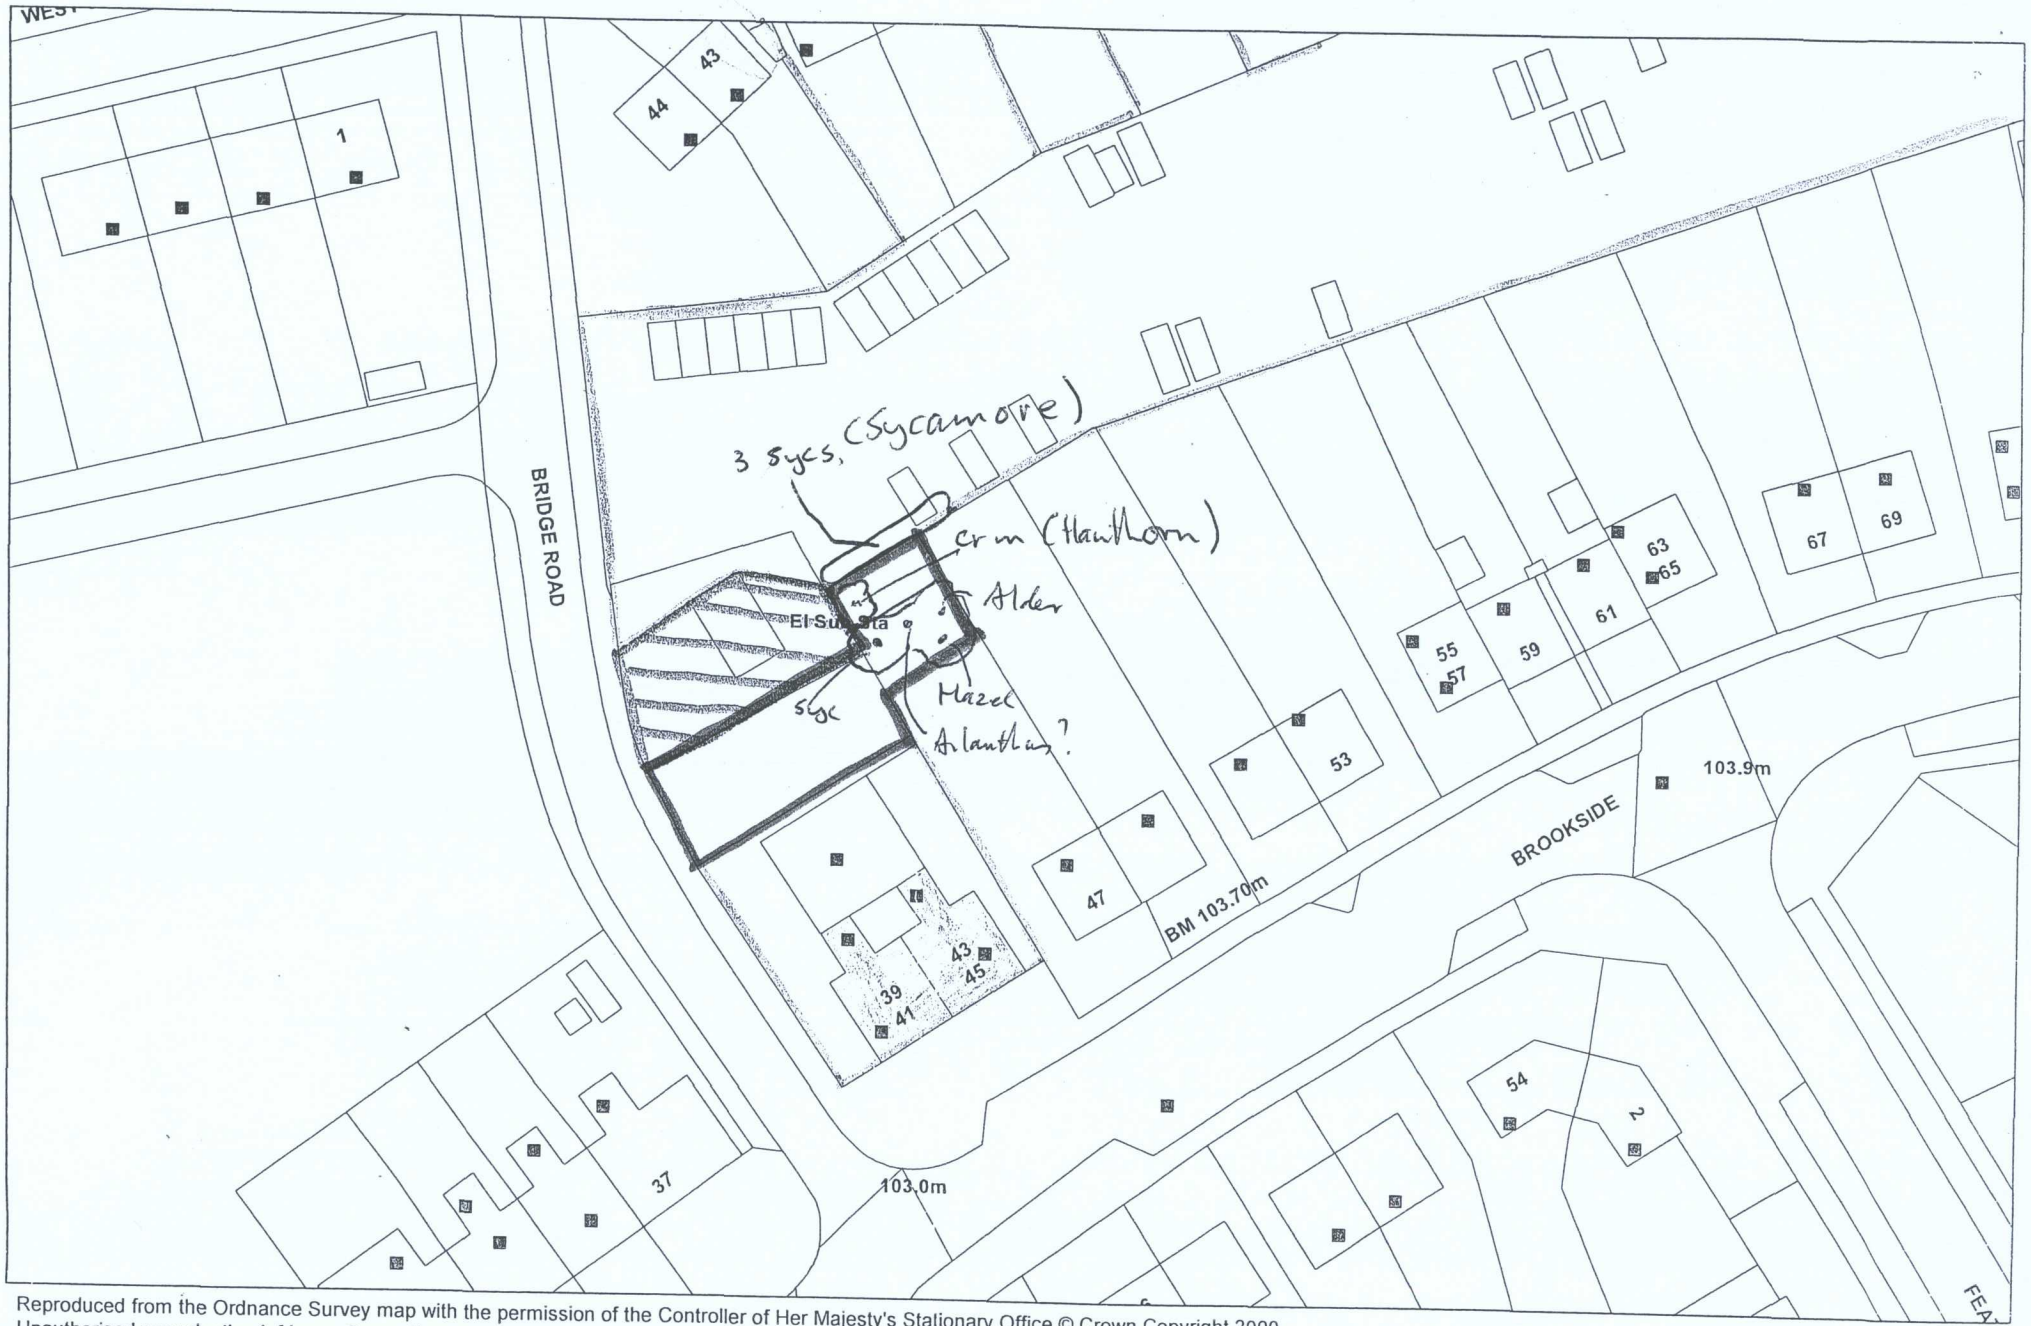

Please let me know if you require any further assistance.

With regards,

Julian Simpson
