

26/00081/DISCON

Supporting information from Bloor Homes in response to PRow comments:

The works are currently being tendered so I would expect to be able to provide a date soon.

Regarding the diversion I would state that there is a footpath which leads on the other side of the road where the footpath comes through towards Normandy way. This is adequately surfaced and leads the pedestrians across a safe crossing and onto the diverted route.

Regarding the other comments:

- I have attached the updated surface materials plan which shows the 1m grass verge along the edge of the pathway.

- I have attached the kerbing plan which shows where the new pathway is being installed and that the kerbs are dropped.
- I have attached the most up to date landscaping for you.
- I have attached a plan which shows the route which we would expect pedestrians to take along the other side of Normandy Way which is more natural and connects with the current pathway.
