

Regarding Parking Provision

There will be a drive on Post office lane directly adjacent to number two Post office lane where the property is divided. This is to the left of the property .

We are trying to create a drive where I can use a wheel chair as I was unable to get the front of the houses as a disabled marked area, due to the property having a drive. The drive as it stands needed paving as it is very uneven , not suitable for a wheelchair.

The gate will be 4 meters long starting from the adjoin wall of the property on number 2 Post office lane.
