Scott,

Please see below re additional evergreen shrubs proposed following our telephone conversation with Simon.

Please confirm that this will be acceptable

Kind Regards

Paul Burton

Subject: Additional Foliage Screening to Grove Rd

Hello Paul,

Further to our earlier conversation I propose the following evergeen shrubs to develop a foliage screen to the Grove Rd boundary.

262 Photinia 'RedRobin' x3
263 Osmanthus x burkwoodii x5
264 Elaeagnus 'Limelight' x3
265 Choisya ternatta x3
266 Mahonia Japonica x5
267 Viburnum Rhytidophyllum x3
268 Prunus Otto Luyken x7

They will all grow to a reasonable height and spread (1.8 x 1.8m +) and should tolerate the

shady planting conditions. My recomendation would be that they are supplied in 15ltr containers with a minimum height of 1m.

I will email the amended drawing and catalogue over on Tuesday.

Regards

Peter
