SUMMARY RECOMMENDATION:

Recommend Refusal		
Holding Objection - Further information required		
REASON FOR RECOMMENDATION:		
- The Preliminary Roost Assessment (PRA) carried out by Stefen Bodnar (January 2026) states the building has negligible bat roost potential and no evidence was found to indicate the presence of bats. - Therefore, no further bat surveys are required, and we have no objection. - The site falls within a Swift Alert area. However, the proposed development does not allow opportunities for swift boxes to be incorporated into the development.
