All drawings must be checked on site by the principal contractor and reported to MSD Ltd and the drawings must be amended prior to any commencement of work.

MSD Ltd is responsible for the design and construction of the building. It is the responsibility of the Client and principle contractor/builder to conform to both Building Regulations and COM 2016 regulations. When existing trees are to be retained the contractor must ensure they are a minimum of 5m from buildings and 3m from drainage services. A suitable method of foundation is to be provided to accommodate the building. The contractor must ensure the building is constructed in accordance with the compliance with Planning and Building Control. It is the responsibility of the client to check that the plans do not contravene or affect covenants or encroach boundaries and matters relating to the building and the surrounding area. The contractor must implement the plans at the relevant stages.
