

Delegated Report

Planning Ref: 24/00563/TPO

Applicant: Gill

Ward: Newbold Verdon With Desford & Peckleton

Hinckley & Bosworth
Borough Council

Site: Rotherwood Station Road Desford

Proposal: T1 - Juglans regia - Fell, T2 - Fagus sylvatica - Fell

1. Recommendations

1.1. Grant consent subject to:

- Planning conditions outlined at the end of this report

2. Planning application description

- 2.1. The application seeks consent to fell the Walnut tree (T1) and Beech tree (T2) at Rotherwood, Station Road, Desford.

3. Description of the site and surrounding area

- 3.1. The application site relates to a two-storey detached dwelling, situated outside of the settlement boundary of Desford. The trees are both situated to the south-west of the application dwelling. Many mature trees can be found in the area that contribute significantly to the visual amenity of the area.
- 3.2. The trees relevant to the application are protected under the HINCKLEY AND BOSWORTH BOROUGH COUNCIL DESFORD (STATION ROAD) TREE PRESERVATION ORDER 1993 (Reference; 93/00002/TPORD). The order protects various specimen standing within the vicinity of the application site to The Cottage.

 - Planning Practice Guidance (PPG)
- 7.5. Other relevant guidance
 - Good Design Guide (2020)
 - National Design Guide (2019)

8. Appraisal

- 8.1. Key Issues
 - Impact upon the amenity of the area
 - Whether the application is justified

Impact upon the amenity of the area

- 8.2 Policy DM10 of the SADMP requires that consideration be given to the impact of the proposal on amenity and the character of the surrounding area. The Walnut tree (T1) and Beech tree (T2) are subject to a group tree preservation order and are therefore considered to have a high level of amenity value.
- 8.3 Policy 136 of the National Policy Planning Framework (NPPF) (2023) seeks to ensure that appropriate measures are in place to secure the long-term maintenance of newly-planted trees, and that existing trees are retained wherever possible.
- 8.4 Policy H1 of the Desford Neighbourhood Plan seeks to ensure that development proposals within the Plan area on sites within the settlement boundary of Desford are supported where they respect the character of the area.
- 8.5 The Walnut tree (T1) and Beech tree (T2) are both situated to the south-west of the application site. The trees are both predominantly screened from a public vantage point from the adjacent highway, Station Road, due to the high volume of trees present at the site.
- 8.6 The Local Planning Authority have assessed the proposed works and can conclude that the works will only have a minor impact upon the amenity of the area, nevertheless due to generous plot that the site hosts and the contribution that the existing trees have, a replanting condition is considered expedient.
- 8.7 The Local Planning Authority therefore deems the amended proposed works as suitable as long as carried out in accordance with BS 3998:2010.

Whether the application is justified

- 8.8 The works as proposed to Walnut tree (T1) and Beech tree (T2) have been assessed by the Local Planning Authority and are considered to be justified.

- 8.9 The proposed felling of the Walnut tree (T1) is required as the tree has been confirmed dead.
- 8.10 The proposed felling of the Walnut tree (T1) is required as the tree has failed and due to this is leaning into the adjacent tree. The proposed felling will ensure that the nearby tree does not come to harm and is retained.
- 8.11 A replanting condition has been imposed.
- 8.12 By virtue of the above it is not considered that the work would have a significant impact upon public amenity and is therefore acceptable.

9. Equality implications

- 9.1 Section 149 of the Equality Act 2010 created the public sector equality duty. Section 149 states:-
- (1) A public authority must, in the exercise of its functions, have due regard to the need to:
- (a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
 - (b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
 - (c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.
- 9.2 Officers have taken this into account and given due regard to this statutory duty, and the matters specified in Section 149 of the Equality Act 2010 in the determination of this application.
- 9.3 There are no known equality implications arising directly from this development.

10. Conclusion

- 10.1. In conclusion the proposed works to the Walnut tree (T1) and Beech tree (T2) are considered to be acceptable. The Local Planning Authority is satisfied that the proposed works to the trees are necessary and that the works will ensure that amenity of the area is retained, as long as condition 4 is complied with. The proposal is therefore in accordance with Policy DM10 of the SADMP, Policy H1 of the Desford Neighbourhood Plan and paragraph 136 of the NPPF. As a result, the application should be approved with conditions set out below.

11. Recommendation

- 11.1 **Grant consent** subject to:

- Planning conditions outlined at the end of this report

11.2 Conditions and Reasons

1. The approved works shall only be carried out in accordance with British Standards Recommendations for Tree work - BS 3998:2010.

Reason: To ensure that the works are carried out in a way that safeguards the health and amenity of the tree in accordance with Policy DM10 of the Site

Allocations and Development Management Policies DPD and paragraph 136 of the NPPF.

2. The works to which this consent relates shall be completed within two years from the date of this consent.

Reason: In accordance with the provisions of the Town and Country Planning (Tree Preservation) Regulations 2012.

3. The proposed works shall be restricted to the felling of the Walnut tree (T1) and Beech tree (T2) only.

Reason: To ensure that the works are carried out in a way that safeguards the health and amenity of the trees in accordance with Policy DM10 of the Site Allocations and Development Management Policies DPD and paragraph 136 of the NPPF.

4. Within one month of the removal of the trees; details of trees, including their location, to replace the Walnut tree (T1) and the Beech tree (T2); shall be submitted to and approved in writing by the Local Planning Authority. The replacement trees shall be planted in accordance with the approved details in the next available planting season (October to March).

Reason: To ensure that replacement trees are planted on site in the interests of protecting the amenity of the conservation area in accordance with Policy DM10 of the adopted Site Allocations and Policies Development Plan Document (2016) and paragraph 136 of the NPPF.

11.3 Notes to applicant

- It is a criminal offence to damage or destroy a bat roost. Therefore, if the tree is mature and has hollow cavities and / or is covered with ivy, or has suitable places in which bats might roost, we recommend that it be surveyed for bats before any work is carried out to the tree. All birds, their nests and eggs are protected by the Wildlife and Countryside Act. We recommend that work to trees is done outside the bird-nesting season - i.e between the end of August and beginning March. If work to the tree is to be undertaken during the bird breeding season, we recommend that a suitably qualified ecologist surveys the tree for nesting birds. If nesting birds are present, work must be postponed until the young have left the nest.
- You are advised that the consent is valid for a period of two years commencing from the date permission is granted, the works for this consent may only be carried out once unless stated otherwise by condition.
- It is necessary, when carrying out works to tree(s) to be aware of the WILDLIFE AND COUNTRYSIDE ACT, 1981, whereby it is an offence for any person who intentionally takes, damages or destroys the nest of any wild bird, while the nest is in use or being built, or takes or destroys any eggs of such wild bird. The times when birds are nesting is generally between the months of March to September inclusive.
- You are advised that if a tree in a conservation area is removed, uprooted or

destroyed the landowner is placed under a duty to plant another tree of an appropriate size and species at the same place as soon as he or she reasonably can.
